## KIDS & TEENS PROGRAMS

### KIDS PROGRAMS

#### **CE 083 Chess and Applied Logic**

7 sessions; \$150

001, Sat.; February 11-March 31, 2012

(no class 3/24)

**Hours:** 2:30-4:00 p.m.

**Location:** TBA

This class is for the beginner or intermediate level player and is designed to teach the rules of chess, roles of playing pieces, and chess playing concepts. Individualized and collaborative learning will be used to help you develop critical thinking, logical reasoning, and memory skills. At the intermediate level, openings and tactics will be introduced. You will be invited to join the US Chess Federation as well as participate in sanctioned Chess Tournaments throughout the year. Come expand your intellectual skills while having fun at the same time! **Ages 7-12 only.**

**Instructor:** John Muth, U.S.C.F. Certified Instructor

#### **CE 184 Small Group Tutorials**

5 sessions; \$50

001, Sat., March 3-April 14, 2012 (Make-up 4/21)

(no class 3/24, 4/7)

**Hours:** 1:00-2:00 p.m.

**Location:** TBA

Come participate in small group instruction of 1-5 students for one hour with a NJ Certified Teacher. Fill out the Tutorials Form (download form from [www.bergen.edu/kidsandteens](http://www.bergen.edu/kidsandteens)) with your registration and list child's age, past grade level, and desired subject area of tutorial. Students will be grouped with various ages deemed appropriate for instruction. **Ages 7-15**

**Instructor:** NJ Certified Teachers

#### **CE 148 Digital Storytelling**

6 sessions; \$130

001, Sat.; March 3-April 21, 2012 (Make-up 4/28)

(no class 3/24, 4/7)

**Hours:** 10:30 a.m.-12:00 p.m.

**Location:** TBA

Do you love to write and create your own stories using computers? Learn how to create imaginative stories using the latest technology. You will brainstorm ideas, organize, and publish your writing. **Ages 8-10**

**Instructor:** TBD

#### **CE 881 Mathemania (Grades 4 & 5)**

6 sessions; \$130

**Hours:** 6:30-8:30 p.m.

**Location:** TBA

## KIDS & TEENS PROGRAMS

### Preparation for SAT's Verbal and Math for High School Students

**Instructors for SAT courses:** Patrick Bouchard and Melissa Iannacone

#### SAT

#### The Spring 2012 SAT dates are as follows:

January 28, 2012  
March 10, 2012

May 5, 2012  
June 2, 2012

Studies have shown that the secret to better SAT scores begins with improving math and verbal skills and ends with practice, practice and more practice. Topics include: pertinent grammar skills (verbal), test-taking strategies, applicable math skills, deductive and logical reasoning (math).

**Required text:** The Official SAT Study Guide: For the New SAT (™) by the College Board.

#### **CE 807 Babysitter Training Course**

1 session; \$125

**001**, Sat.; March 3, 2012 (Make-up 3/10)

**Hours:** 10:00 a.m.-4:00 p.m.

**Location:** TBA

Become a certified American Red Cross Babysitter! In this six hour program learn how to identify potential hazards in the home, prevent injuries, diaper, feed babies, make simple healthy meals for kids and deal with bedtime issues. You will also learn interview skills to help you get babysitting jobs. You will take home a CD ROM and Red Cross Babysitting Booklet for future reference and receive a Red Cross Babysitting Certification Card a few weeks after the class ends. Please bring a snack, a bagged lunch, and a doll to practice your babysitting skills the day of the class!

**Ages 11-15 only.**

**Instructor:** Certified Red Cross Instructor

#### **Create a class!**

If you have 5 kids or teens and a particular class in mind, contact the School of Continuing Education at (201) 447-7488 a month in advance of the desired start date. Our Children's Programs Supervisor will work to meet the group's educational needs, pending Bergen Community College's approval.

#### **✓NEW**

#### **OL 431 Basic Algebra**

Online; \$300

**001**, February 7-April 9, 2012

**Hours:** Asynchronous

**002**, April 11-June 11, 2012

**Hours:** Asynchronous

This course involves all major aspects of Algebra and enables students to be better prepared for the college, pre-employment skill development and scholastic aptitude examination. The course includes comprehensive work with expressions, functions, monomials / polynomials, solving simple and complex equations, solving word problems as well as many other aspects of algebraic procedures and common practices used in school / college disciplines, and workplace applications.

**Instructor:** Dr. Sinclair, Ph.D., Online Education Specialist

#### **✓NEW**

#### **OL 432 Geometry/Trigonometry**

Online; \$300

**001**, February 7-April 9, 2012

**Hours:** Asynchronous

**002**, April 11-June 11, 2012

**Hours:** Asynchronous

This course covers major areas of Geometry / Trigonometry used in modern technology, business as well as traditional school/college disciplines. The course covers the use of linear measurements, area, volume, as well as common solutions to angular and planar problems. The course also includes common trigonometric functions, spherical and conical geometry, angle transformation formulae, as well as many other basic and more advanced functional problems and their solutions.

**Instructor:** Dr. Sinclair, Ph.D., Online Education Specialist
